

Lab 1 – Create a sitemap

Description:

This lab will require you to create a sitemap for a webpage that meets the description found in the instructions.

Instructions:

Please read and follow the instructions carefully:

1. Open Figma.
2. Add a header that contains the following.
 - a. Logo on the left and a nav with three links on the right.
3. Add a masthead / hero image under the navigation. Have the text Hello World centered both horizontally and vertically.
4. Under the masthead add a row with three columns.
5. Under the three-column row add another row that has two columns.
6. Add a footer with a logo on the left and a form with three inputs on the right.
7. Upload to GitHub and submit the link on Blackboard.

Please note that this lab must be completed before the end of class.
